# BROMAX G

Rev. 4 of 25/06/2020

## READY-FOR-USE BROMADIOLONE-BASED GRANULATED RODENTICIDE BAIT - FOR PROFESSIONAL AND NON-PROFESSIONALE USE -

### COMPOSITION

Pure Bromadiolone (CAS 28772-56-7)	gr. 0,0029
Denatonium Benzoate (CAS 3734-33-6)	gr. 0,001
Palatable substances and co-formulants	quantum satis for gr. 100

### CHARACTERISTICS

**BROMAX G** is a ready-for-use rodenticide bait with at its base the anticoagulant active substance known as Bromadiolone, which is effective against mice (*Mus musculus*) and grey rats (*Rattus norvegicus*) even after a single ingestion. Its formulation consists of cereals that are particularly attractive and palatable for all rodents' species indicated in the instructions. The product does not arouse neither alarm nor suspicion among the other members of the rodents' population.

**BROMAX G** contains a bitter substance aimed at preventing children from swallowing it accidentally.

**BROMAX G** can be used inside, outside and around rural and civil buildings, houses, basements, garages, storerooms, and appurtenant gardens.

### DOSES AND MODES OF USE

**Application methods:** In bait boxes - Ready-for-use bait to be used in tampering-proof containers, sacks or in bulk grains.

The product is ready for use and must be employed in accordance with the doses below. The rodenticide bait must be inserted in an appropriate tampering-proof container and must be protected against atmospheric agents, the ingestion of non-target species and the dispersion into the environment. Avoid touching the product with bare hands and use appropriate gloves.

#### Doses:

House Mouse (*Mus musculus*): 60-100 g of product per enticement point.

Grey Rat (*Rattus norvegicus*): 100-200 g of product per enticement point.

Because of their delayed-action, anticoagulant rodenticides can take from 4 to 10 days after bait intake to be effective. Rodents can be disease carriers. Do not touch dead rodents with bare hands. To remove them, use gloves or tools such as pliers.

**The product is stable for 2 years.**

### LABELLING

### HAZARD STATEMENTS

**H373** Causes damage to organs (BLOOD) through prolonged or repeated exposure.

### PRECAUTIONARY STATEMENTS

**P102** Keep out of reach of children. **P103** Read carefully and follow all the instructions. **P260** Do not breathe dust/fume/gas/mist/vapours/spray. **P280** Wear protective gloves. **P314** If you feel unwell, seek medical advice. **P501** Dispose of contents and containers as hazard and special waste according to national regulations.
