

DISINFECTANT

SANICID

Rev. 3 of 24/04/2020

PERFUMED CLEANER DISINFECTANT DEODORANT - FOR CIVIL USE-

COMPOSITION

Alchil-di-Metil-Benzil-Ammonium chloride
Natural Essences and water

g. 5
q.s. to g. 100

FEATURES

SANICID is a disinfectant deodorant perfumed based on quaternary ammonium salts and essential oils. It eliminates odors blocking the processes of fermentation and putrefaction, exert a wide bactericidal and fungicidal action on surfaces with is in contact.

CHEMICAL-PHYSICAL CHARACTERISTICS: pH 7.

DOSES AND USE

SANICID is particularly indicated for disinfecting home and the community in general: domestic and public premises, hospitals, hotels, restaurants, canteens, coexistence premises. **SANICID** is used diluted in water from 0.5% to 2% depending on the characteristics of the surfaces to be treated.

It is recommended for use as it is for a vigorous broad-spectrum bactericidal. The minimum contact time for disinfection by using pure is of 3 minutes.
